

NORWOOD NETBALL CLUB TRAINING PARTNERS

CONNECTING IDENTIFIED ATHLETES TO PREMIER LEAGUE AND RESERVES OPPORTUNITIES

PROGRAM OVERVIEW

Norwood Training Partners

Training Partners are an important part of Norwood's future pathway for athletes aspiring to compete at Premier League or Reserves level.

Selected training partners who have not been selected among the top 22 Premier League contracted ***Intent to Play*** players will be automatically selected into the Norwood **AMND** team for the winter season.

Training Partners will be considered for elevation into the Premier League Squad should a replacement player be required.

Training Partners are identified and selected through Premier League and Reserves trials and/or AMND trials.

Players will be selected to cover all areas of the court with a maximum of up to 6 athletes being invited as Training Partners each year. (Number may vary at the discretion of the Premier League coaching group)

Opportunities

Training Partners will have the opportunity to:

- Access Lumin. (Athlete Management System)
- Take part in strength and conditioning during Pre-Season at Baseline Built.
- Join the Premier League squad for on-court sessions to build connection with the group. (Dates to be finalised once the draw has been confirmed)

A Club contract will be initiated for each selected athlete before the program begins. It will outline the athlete's commitments and the support and opportunities they will receive, providing a clear framework to support each athlete, and Norwood's future pathway. All selected AMND players who are named as Training Partners will be required to secure an individual sponsor (\$500.00) to support your inclusion into the Premier League environment. The contract also stipulates their contractual obligation to commit to playing AMND / Inter 1 for winter 2027.
